

SPORTSMEN BANQUET MONDAY BENEFITS FISH AND GAME WORK OF LOCAL ASSOCIATION

Raising of funds to continue work in connection with preservation of fish and game is the principal object of the Southern Tulare County Sportsmen's association banquet, slated for 315 Garden street, Porterville, next Monday evening at 7 o'clock, however, premium on the \$2 association membership tickets that are now being sold is an excellent dinner and a high-class program of entertainment.

Banquet speaker will be Elliott J. Taylor director of admissions at College of the Pacific, whose subject will be "Power Politics in the Near East;" musical entertainment will be offered by the well-known Ed. Hennessy of Fresno.

In addition, the Porterville Elks' Lodge band will play; Association President Harry J. Johnson will give his annual report; officers will be elected for the 1951-52 year and a number of special features are planned.

An unbeatable dinner will be prepared by George Cole, Strathmore rancher and chef deluxe. He will be assisted by members of the Sportsmen's association.

Two dollar memberships in the association, sold annually, finance the program of the Southern Tulare County Sportsmen's association — one of the largest and most active organizations of its kind in the state.

Through efforts of the association in past years, the Moorehouse hatchery and holding ponds on the middle fork of the Tule, were constructed and at present, 100,000 catchable-size fish are ready for planting at Moorehouse and from 100,000 to 150,000 more

LINDSAY IS HOST AT FESTIVAL

The city of Lindsay plays host to the southern valley next Saturday when it entertains with its annual Orange Blossom festival, one of California's most colorful events that this year will feature dancing, music, a parade, a homecoming and dedication of a monument to the late Col. R. B. Marshall, "father" of the Central Valley Project.

The festival will get under way Friday night when Movie Actor Tim Holt crowns Sue Depew as queen of the festival in a ceremony at the Lindsay Olive bowl, with Mayor Roy Crouch assisting. Stary Gange, Lindsay olive grower, will deliver an official welcome to open the ceremony.

Featured in the festival parade that will move down Lindsay streets Saturday morning at 10 o'clock will be floats, mounted groups, commercial exhibits, bands and other types of entries. The parade will form in the city park, move along Honolulu street

AGRICULTURAL INCOME UP \$18 MILLION FOR NEW RECORD

Agricultural income in Tulare county jumped almost \$18,000,000 during the past year to a total value of \$196,819,459, according to the 1950 report of Oscar L. Hemphill, agricultural commissioner, issued this week, the 1949 figure being in excess of \$178 million; the 1948 figure being slightly over \$184 million.

The high 1950 value is broken into the following amounts by Mr. Hemphill: Citrus, \$17,713,803; deciduous and grapes, \$43,003,823; truck crops, \$12,806,761; agriculture, \$136,800; dairy products, \$12,381,358; livestock, \$39,301,065; miscellaneous, \$1,

\$22,934; poultry, \$8,662,106; field crops, \$61,238,923 and subsidy payments, \$251,886.

A breakdown of planted acreage figures for the county shows: Citrus 38,744; deciduous and grapes, 109,997; truck crops, 26,003 and field crops, 268,702.

In explaining the basis for acreages and valuations, Mr. Hemphill says, "Insofar as possible, the acreage represents 'net planted' and the values of all crops are f.o.b. — not what the farmer received. It is intended that all returns shall mean income to Tulare county, and thus

SPRINGVILLE CELEBRATION IS SET TO GO

A rip-roarin' Frontier Days program, featuring an RCA approved rodeo that will have as its guest stars Rex Bell, Hoot Gibson, Tom London and Monte Hale, of movie fame, is ready to roll at Springville, with the celebration to open Saturday morning and continue through Sunday.

Big feature event of the celebration will be the Sunday rodeo, slated for the newly remodeled Gill arena on the Balch Park road, and with stars of the rodeo world competing.

Ira Shearer will announce the show; Chuck Lorimer has been signed as clown and bull fighter; Don Gill will be arena director; Porterville's Fair Canterbelles will ride in their precision mounted drill and Cuff Burrell will bring in his famous rodeo string for the show.

A barbecue dinner will be served at the arena grounds starting after a morning street parade in Springville, slated for 10:30, that will open the Sunday program. Soft drinks will also be served on the grounds, and an invitation has been extended by the Springville chamber of commerce to valley residents to "make a day of it" with a picnic lunch in the green

(Continued On Page 14)

Additional Chairmen Named For Junior Fair

Additional chairmen for the 1951 edition of Porterville's Livestock Show and Fair, May 24, 25, and 26, were named at a meeting of directors last Thursday night at Gang Sue's Tea Garden — Guido Lombardi, facilities; Chet Griswold, merchant displays; L. N. Carpenter, poultry, rabbits and pigeons and Ira Marks, farm implements.

Completed during the week was a layout plan for the Porterville Municipal ball park where the fair will be held this year, with main entrance to the grounds to be the large, northeast gate and with merchant displays to be placed along the east fence and part of the south fence, under canvas cover.

Livestock will be placed along the south and west fences; professional, circus-type entertainment will be staged in front of the grandstand and Porterville's Fair Canterbelles will ride in the area beyond the baseball infield.

Meanwhile, Fair Manager Harry Britton is lining up commercial exhibits; Allan Coates is signing concessions and Future Farmers and 4-H exhibitors throughout the southern Tulare county area, are grooming livestock for the "million dollar" livestock show.

F.F.A. BANQUET

The third annual Parent and Son banquet of the Strathmore Future Farmers of America chapter will be held tomorrow night (Friday) at 7 P.M. in the Strathmore Union High School cafeteria, with a special program being arranged by chapter officers and Charles Solomon, head of the school agricultural department.

HEY! HEY!

They've gone hog wild at Strathmore Hardware. Take a look at page 10, then rush over and see Sam.

EVERYONE, YOUNG and old, is ready for Springville's great Frontier Days and Rodeo, next Saturday and Sunday, with upper photo, showing left to right, Monte Gifford, president of the Springville chamber of commerce and Ted Morgan, general chairman of the Springville celebration. The young cowboy is Bill Woods Jr., of Springville. (Farm Tribune photo.) Lower, Rex Bell, motion picture actor, Nevada rancher and business man, who will be guest of honor at the Sunday Rodeo, with Actor Hoot Gibson.

BILL STANLEY NAMED GENERAL MANAGER FOR PORTERVILLE'S ANNUAL ROUNDUP

Bill Stanley was named general manager of the 1951 Porterville Roundup and Fiesta to be staged by the Orange Belt Saddle club at the Rocky Hill arena east of Porterville May 5 and 6, at a meeting of the general committee held Tuesday night, and Mr. Stanley and Frank Brown were named as a committee to arrange for dances in connection with the Roundup.

An inaugural ball for queen of the Roundup will be held the evening of Friday, May 4 and a Roundup dance, May 5, following the opening night program of the Roundup.

In addition, the Saddle club will stage a Main street parade the morning of May 5; a Spanish Fiesta, in connection with Cinco De Mayo, will also be held Saturday and the town will "go western" prior to the Roundup and Fiesta weekend.

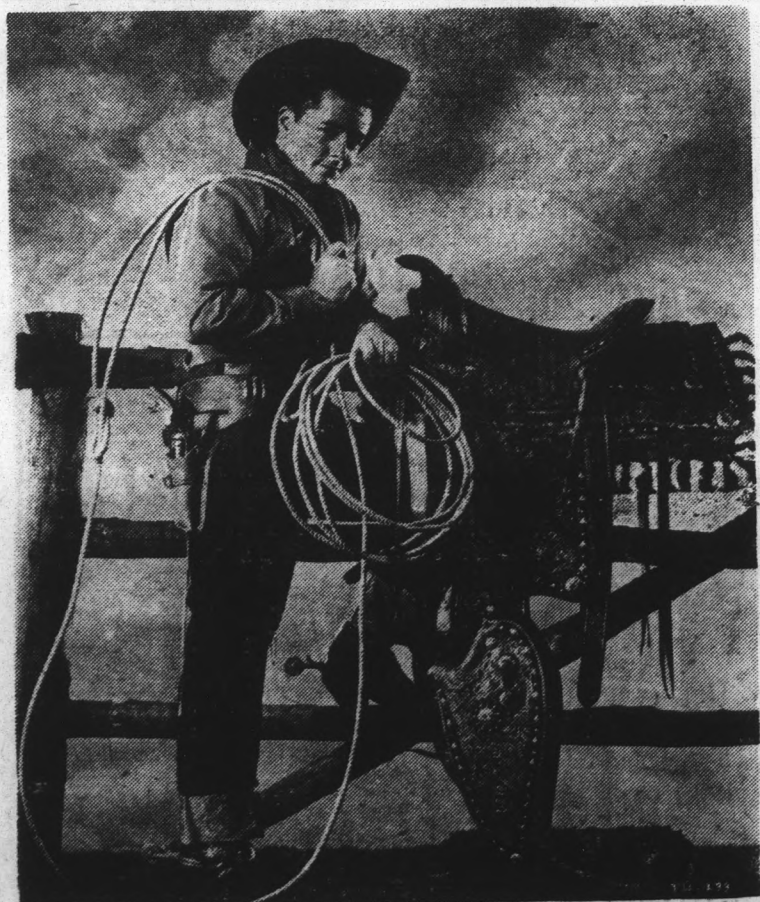

Program for the Roundup itself is virtually completed. Pete Logan will announce the show; Cuff Burrell's broncs and Brahamans will offer competition to

some of the best rodeo performers in the business, who will be gunning for R.C.A. championship points; Joaquin Sanchez has been signed as clown and bull fighter, along with "Shorty" Crabtree.

Beeswax, the mule, and the Moore family with their novelty act, will entertain and Porterville's Fair Canterbelles, in brand new, colorful western outfits, will ride in their precision drill.

Certified Seed Tour

Farmers of the county are invited to participate in the annual spring inspection tour of certified seed fields in Tulare county, Thursday, April 26. The tour will start at the H. C. Borchardt ranch, two miles north and one mile east of Alpaugh at 9 A.M., continue to the A. J. Zimmerman ranch at Ducor, at 10 A.M., then will continue through Terra Bella, Woodlake, Tulare, Visalia and Orange Cove. Ranchers are invited to join the tour at any point along the route.

COWBOY STAR, Tim Holt, well-known movie actor, son of the famous movie star, the late Jack Holt, is shown as he prepares for the Lindsay Orange Blossom Festival on April 20-21. Holt, who rides hard and fast and shoots straight in the cinema, will reign as King of the two-day festival which promises to be one of the finest in the history of Lindsay.

FOR THE LADIES

AGRONOMY FIELD DAY SET AT DAVIS FRIDAY, MAY 18

Annual spring agronomy field day will be held on the Davis campus of the University of California, Friday, May 18, with farmers at that time given an opportunity to observe results of crop production and improvement work of the university. The meeting opens at 9:30 A.M.

Theme of the field day this year will be, "Better Crops

Start 'em right
on Albers
**CHICK
STARTER**

This year start your chicks RIGHT... be sure you feed Albers **APF. Fortified CHICK STARTER**. It gets the birds off to a fast start, grows them strongly, and helps develop better producers for the laying house.

You can't find a better feed than Albers **CHICK STARTER** at any price. Drop in at our store and get **FREE** literature on successful brooding.

**PORTERVILLE
FEED & SEED**

227 N. D St. — Phone 41
Porterville

Through Plant Breeding." New developments and experimental work will be demonstrated by members of the agronomy staff at the college. These demonstrations will give the farmers opportunity to see how plant breeding principles and methods are used in the improvement of commercial crops in California. Included will be oil crops, grain, alfalfa, and pasture grasses.

Olive Growers Should Prepare To Spray

By Karl W. Opitz, Farm Advisor
Olive growers should make spraying arrangements for olive scale as soon as possible. Timing is a very important factor in successful scale control, even with such potent insecticides as parathion.

Although the very best time to apply insecticides for controlling the olive parlitoria scale is right after bloom, it is generally fair satisfactory to work well into the month of June. If spraying must be delayed until July, however, it is best to cease operations until the latter part of July.

Where black scale is the biggest problem, it would be best to spray during the last week in July, that is if parathion is used in the spray mix. Parathion cannot be applied after the first of August.

Chuck Wagon Dinner

"The greatest chuck wagon dinner ever staged," along with the annual meeting of the organization, has been scheduled by the Central Valley Empire association at the Fresno Memorial auditorium, Thursday night, April 26, with featured speaker to be Allan B. Kline, president of the American Farm Bureau Federation.

COTTON ACREAGE

Tulare county had 181,949 acres of cotton that was harvested during the 1950-51 season.

The most important single factor in cattle range improvement is grazing management.

Today's Pattern

PANSIES FOR CROCHET

Have you been wanting one of these fascinating pansy designs? Well, here it is. Instructions for an attractive refreshment set are included in pattern C676. You'll enjoy making this useful set and the directions are so easy to follow you will have them finished in no time. Enclose 21c, mail to **THE FARM TRIBUNE, 522 N. Main St., Porterville**. Allow about 15 days for delivery.

Home Demonstration day, a feature of National Home Demonstration week, will be held at Mooney Grove, May 9, when recognition will be given to the 120 volunteer leaders who have assisted in carrying on the program in the county during the past year.

Program planned by county leaders will include community displays showing accomplishments in home demonstration work, a clothing review, community singing and short talks by leaders. Miss Lucy Allen, Berkeley Regional supervisor, will give recognition to the leaders for their fine work.

SPRINGVILLE NEWS

By WINNIE GAGE

Mr. and Mrs. Paul Gregg of Cleveland, Ohio, spent a couple of days, recently, as guests of Mr. and Mrs. Allan Watters. Mrs. Gregg is a cousin of Mrs. Watters.

Mr. and Mrs. Bert Renshaw and Mr. and Mrs. S. M. White of Pixley, and Mr. and Mrs. A. G. Hampton enjoyed a few days' fishing trip at Needles, Calif. Mr. Hampton has had pneumonia since returning home, but his condition is improving.

Mr. and Mrs. Iva Hampton and daughters, Wilma and Lottie, of McFarland spent the weekend with Mr. Hampton's parents, Mr. and Mrs. A. G. Hampton.

Mr. and Mrs. Hubert Ogan and son of Tulare visited Mr. and Mrs. Robert Ogan over the weekend.

Dr. and Mrs. J. W. Gorham of Los Angeles are spending a few days here with his sister, Peg Gorham.

Mrs. Charles P. Hodges spent a few days in Taft visiting her friend, Mrs. B. H. Pierce.

Mr. and Mrs. Ira L. Spees, Jr., have returned from a trip to Crest Line.

Visitors in the Lyman Gage home Sunday were: Mr. and Mrs. A. A. Price of Redding; Mr. and Mrs. Earl Sawyer, Mr. and Mrs. Hubert Gregg, Mr. and Mrs. Bob Walters and son, all of McFarland; Mr. and Mrs. Bailey Keith of Earlimart; Mr. and Mrs. J. B. Griggs and Mrs. Bernard Griggs of Delano.

Mr. and Mrs. Charles Hauser and son, Duane, of Los Angeles, and Mr. and Mrs. Gilbert Arvizu and family of Arvin were recent guests of Mr. and Mrs. Greg Bracamonte.

Jackson T. Brockman and Louise Bedford of Cameo Vineyards on Poplar Road were married Friday, April 13, at her home at 9:30 P.M.

Rev. Mayo of Parlier performed the ceremony. They will be at home at Muroc after a honeymoon in Yosemite.

Mrs. Mary Dillion is in Visalia with her sister, Mrs. Dean, for a visit.

Doyle Clinkenbeard, son of Mr. and Mrs. N. B. Clinkenbeard, has passed his physical and will be inducted into the Army forces soon.

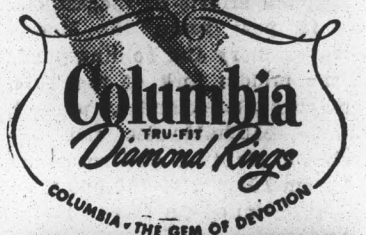

Mr. and Mrs. Jack Sanders spent Sunday in Madera visiting Mr. and Mrs. Mervin Gasken, who are leaving soon for Sitka, Alaska, where Mr. Gasken has employment.

Mr. and Mrs. Dick Vernon spent Sunday in Fresno visiting her sister and family, Mr. and Mrs. Perrien.

The Employees Club of the hospital has a dance at the recreation hall on the hospital grounds every Friday evening. All employees and friends are invited.

For tractor owners only

Maybe we shouldn't let any one else in on this — but — some owner of a track-layer was responsible for the sorry looking bushing pictured above.

The picture tells its own story. One side of the bushing received no wear—the other side wore through.

Had these parts been watched, and turned so that they wore evenly, their life would have been more than doubled

—the cost of replacement avoided.

But with today's shortages that's only half the story. How long will it take to replace worn parts? Can you afford to have your tractor laid up indefinitely? Maybe you can, but Uncle Sam can not.

So watch your machinery carefully—have it checked regularly by an expert. And remember, it's your duty to be thrifty.

THE OLD DAYS

From miscellaneous files of pioneer Porterville newspapers, provided through the courtesy of Howard J. Frame, Porterville.

APRIL 17, 1891

The horticultural society met on the 11th; they ordered one of Bean's spray pumps through the hardware firm of Shultz & Co., which will be put to work in the orchards immediately.

So far as scale in the apple orchards on the Porterville side of the river is concerned, it is not two years since the first appearance. But there was scale in many orchards at Plano before then. The wooly aphids has been in Plano for a long time and the people have experimented in many ways to get rid of it, but have not succeeded.

J. D. Tyler grubbed out a fine apple orchard this spring, as he could not destroy the aphids, which kills the tree eventually. We hope someone may discover a remedy in the future, as we hate to lose our fine apples.

Beef buyers, and in fact all kinds of livestock buyers, are riding through the country all the time now, buying for San Francisco butchers and others. Mr. Mentz has sold 88 head and about 1,000 head have been sold in this district in the past month.

Steers and fat heifers are bringing five cents on foot.

W. W. Brown is improving slowly. He is to be brought to town to the L. J. Redfield residence for a change of air and water, as they think the well water is the cause of their having more sickness in their family than in other families. The Browns have an 80 foot well of good water, but believe the pipe is unsoldered, allowing surface water to enter.

Mrs. S. J. W. Tyler is very sick at home from blood poisoning in her hand.

Sherman Bennett, who has been at the A. R. Henry place for six months, left on the 14th for Fresno, where he has a situation waiting him.

The grain is growing nicely this cool, cloudy weather. The river has been high from heavy rains in the mountains and snow has been piled up as a storage for summer water.

(From the Tulare Weekly Register): The Salvation Army had a banquet and general jollification last night as a farewell honor to Adjutant Halpin and this morning the doors of their headquarters present a very attractive appearance, covered as they are with rotten eggs and mud. It is high time the officers of this city get a move on themselves. Night after night this thing continues at these meetings. If there are not officers enough in this city to preserve order, let the rest of the population be sworn to as deputies.

On Friday night last, two feet of snow fell at B. F. Harper's place just this side of Frazier's

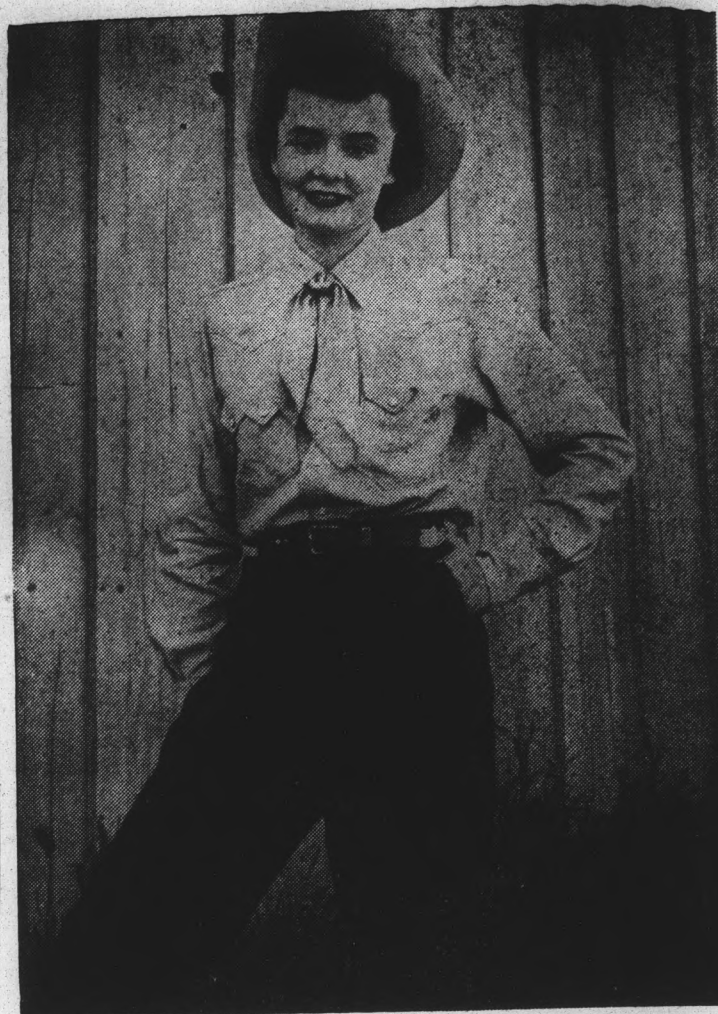

BARN THEATER STAGE WHISPERS

"BORN YESTERDAY" IS NOW RAISED, GROWN UP, AND LEFT ITS HAPPY HOME DEPT.: As all Barn productions eventually do, "Born Yesterday" now moves into the annals of history, leaving its cast to simmer down to something like normal living again. Phyllis Towle can now concentrate on getting rid of that sensational accent she learned for the show, and John Vaznaian can concentrate on returning to the human from the neanderthalic state he's been forced to occupy for the last month!

SO NOW WE TAKE A DEEP BREATH AND TAKE OFF ON ANOTHER SHOW DEPT.: The next couple of weeks we can spend working on what happens in a south sea island hospital ward to eight men and a girl in "The Hasty Heart."

WE FIGURE OUT NEW WAYS TO DRIVE A CAST CRAZY EVERY TIME WE DO A SHOW DEPT.: Mel Price and Thelma Bellah are now going not too quietly nuts working out a sequence in "Happy Journey" (one of the one-acts) when they drive a car in pantomime — no props at all. Just try sitting in a chair and going through all the notions of starting and driving a car and see where you get!

"A BILL OF ONE ACT PLAYS," THE FOURTH DRAWING ROOM PRODUCTION APRIL 20, 21, ATTENDANCE BY RESERVATION ONLY, CALL THE BARN, 1547-M. "THE HASTY HEART" MAY 3.

PRETTY RIDER, Claire Doddridge, 17-year-old cowgirl from Lindsay, is representative of the hundreds of riders and participants entered in the two-day Lindsay Orange Blossom Festival on April 20-21. A high school senior, Miss Doddridge will be mounted on "Rex Cid," a golden palomino stallion, which is a 1950 Christmas gift from her parents, Mr. and Mrs. D. W. Doddridge. Miss Doddridge, who will grace the Lindsay Orange Blossom Festival with her skill and beauty, has been riding since childhood.

mill. Those who had gone up to get in trees and crops came down to abide yet awhile longer.

As soon as the weather will permit, J. J. Doyle is going up to put some general improvements upon his mountain ranch.

Joe Hoover was down from Frazier valley yesterday.

Trout fishing is reported good now along the Tule in the foothills, the fish being of good size and readily taken.

Horse thieves are operating around Selma, five or six valuable animals disappearing within a day or two the first of the month.

It is reported that several colonies are to be located in the region of the Tulare lake, and within a year or two, this district will come into great prominence.

Ten hours a day is the new time schedule at the railroad shops in Tulare.

A two-row range seeder is now being developed at Davis.

County Free of 'Quick Decline' Survey Reveals

No trace of "quick decline" or "tristeza," the disease that has brought havoc through a section of Southern California's citrus belt, has been found in Tulare county, in the new survey being conducted by the county agriculture department, according to Commissioner Oscar Hemphill.

The survey has been practically completed and Tulare county is believed as yet unaffected by the disease. No cure or treatment for quick decline has been found. It affects sweet stock growing on sour orange root.

Population of the San Joaquin valley has increased 54.6% in the last 10 years.

INSUR EATHERS

By Phil The Forester

Frog season does not open until June 1 as a great many folks are discovering from game wardens who are making a great number of arrests of those who knowingly or otherwise are rushing the season.

One of the biggest frog violation cases coming to our attention was the recent arrest of J. E. Greenleaf of Corcoran who had 92 frogs in possession (68 over the limit) of which 33 were less than the required four inches from tip of nose to crotch. Greenleaf was given a 60 day jail term but the sentence was suspended.

Striped bass in the delta area are beginning to show signs of life but no big runs or easy limits have been reported to us as yet.

Ocean salmon fishing off the Golden Gate continues to furnish top sport.

Abalone and clam diggers will find zero tides this weekend but minus tides at the right time of day will not occur until the last week of this month but then the trout season will open in most of the state on Saturday, April 28.

Cattfish, black bass, bluegill and crappie fishing at Bass Lake is producing results even though the water is somewhat muddy.

Hatchery Plans Shelved

The legislative council has expressed the opinion that as long as the California Wildlife Conservation Board is presumed to be unconstitutional, none of the unexpended \$9,000,000 which was appropriated to the board from horse race revenue could be disbursed.

THAT'S THE LIFE — a mountain stream, with trout in it. The \$2 membership ticket that you buy in the Southern Tulare County Sportsmen's association makes such trout-stocked streams possible

The attorney general has recently ruled that this board, of which Seth Gordon is chief consultant, is unconstitutional but the organized sportsmen are testing the validity of the ruling in the State Supreme Court.

In the meantime a great many fish and game improvement projects must be shelved, as for example the proposed San Joaquin River trout hatchery. After almost two years of negotiations, this project was about ready for construction and when completed was scheduled to produce some 700,000 catchable size trout and a million fingerlings annually. It's in a "mark time" status now under the circumstances and that condition may set the expanded catchable size trout planting program back an entire fishing season.

But to relieve the mind of the worried Waltonian we hasten to add that as many "put and take" trout will be available for low elevation waters in the San Joaquin Valley as last year.

Want a job with the fish and game commission? Deckhand positions are open on fish and game patrol boats with a salary range from \$220 to \$268 per month. Applications may be obtained from the local office of the Department of Employment. Final date for filing is May 26 and the examination will be given June 16.

Fishermen are reminded that the Kings River upstream from the Friant-Kern Canal is closed to all fishing except when the trout season is open. There is no closed season on bass, catfish or other warm water species in the Kings below that point.

STATE OFFICE

K. B. Reid, past president of the Tulare County Tuberculosis and Health association, has been elected to a three-year term on the state TB association board of directors.

PLENTIFUL FOOD FEATURES FOR APRIL

APPLES Supply Plentiful

Rated as a Best Buy in most Western markets are apples from the record storage supplies for this time of year. Apples are one of the most adaptable of fruits and may be used in many ways to vary springtime meals.

Apples can appear at every meal . . . in almost every course. Raw, they are excellent food values "as is" for desserts and between-meal snacks. In salads, they combine with almost any other fruit . . . fresh, frozen, canned or dried . . . and with several vegetables such as carrots, celery, cabbage, lettuce.

When cooked, apples give zest and variety to a meal. Fried apples may be served with bacon, ham, sausage, or as a garnish for meat and poultry. For dessert there is pie, spiced, baked, or glazed apple rings. For all the time, very few things are better than applesauce.

POTTED MEAT

If you prefer potted meat, use the thick stuff from the bottom of the kettle put through a sieve, chopped green onion to taste, meat scraps and enough juice to jelly the works.

OUTDOOR MEALS BOOK FREE

The booklet, "Outdoor Meals That Fit The Spot," a publication of the California Dairy Industry Board, is excellent and free. Write to The Farm Tribune, Porterville, Calif., and a copy will be sent to you.

The book offers chapters on:

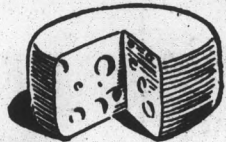

- "Meals To Fit Your Garden Grill"
- "For Porch and Terrace Serving"
- "Picnic Fare"
- "Easy Meals For Cabin Cooking"
- "Cooking In Camp"

Recipes include Salads and Appetizers, Main Dishes, Vegetables, Sandwiches, Breads, Desserts and Drinks. The 24-page book is a dandy, one that you'll enjoy.

VEGETABLES FOR APRIL

Western consumers are now getting the benefit of the usual spring increase in California vegetable production . . . and a heavier volume is ahead for the rest of the month.

Vegetable marketing will continue to increase in May and will remain heavy through the month of June.

Among the vegetables appearing in the markets in increased quantity now are artichokes, asparagus, snap beans, carrots and cauliflower. Cantaloupes from the Imperial Valley will begin arriving in volume around May 1.

Corn, peas, and early bell peppers and tomatoes will be available in larger quantities during the next several weeks. Late in April a substantial volume of strawberries will be moved to the markets.

The harvest of spring onions in the Imperial Valley has started and the first supplies will be

available in our markets. Light shipments of early potatoes from Kern County have been made, and shipments will increase in the next few weeks.

BROILER CHICKENS

Broiler chick placements have been at a high rate since late January. That is supposed to indicate that there will be a large marketing of broilers in April and the months after.

MORE MEAT THIS YEAR

The prospects are that meat production will be moderately higher this year than 1950. More meat animals were on farms last January 1 than a year earlier. Large calf, pig, and lamb crops are assured if the weather doesn't snarl things up.

BROTH, HOT OR COLD

Straining this juice to make clear broth is easy and you can

SHOPPING

Gardening Now LAWNS

Moth-eaten lawns are not a wise-crack . . . they can be a painful fact. It's a little early by the calendar for moths in the lawn; but by the thermometer it may be just about the right time to start watching.

Round brown spots from the size of a plate to the size of a table are the ultimate signs of moths . . . look just like any moth-eaten fabric. Early signs are a flock of black birds busy on your lawn and a flock of little white moths that you can see best when the sun is just down.

Now, a dust is used instead of the older spray. The dust costs less and does a better job. I talked to John Daybell about the matter and got the dust information from him. You can apply the dust if you have the duster . . . or he can do it with his machine.

Usually, it's young lawns that suffer from the moths most. Healthy middle-aged lawns can withstand the attack. As in clothes, it's not really the moths that eat the victim. The moths lay eggs in the suits and lawns, the eggs hatch into grubs and the grubs eat. (Hence the black-birds.)

VEGETABLES

In the five springs I've spent in Porterville I've never seen so many garden seeds purchased. I'm not sure whether it's the result of the government's request that we plant gardens again, or the high price of food. Probably both.

John has had his seed racks stripped clean five times this spring! Having spent the money and effort for the plantings, you'd better keep an eye out for the pests. Might as well spend a bit more for dusts and sprays and get the food.

COMBINATION PLANTINGS

Have solved the mystery of what ailed the camellia with the burned leaves! Dear old afdids arrived to eat the columbine on schedule; so out I went with the oil base spray and soured 'em good! Then I knew! Last year I did the same thing and some of the spray got

on the camellia near by* That's the end of columbine inter-planted with camellias!

There's more to think of in combination plantings than shade, sun, moisture, soil, color, blooming times, and fertilizers. Make sure that two or more things planted together have all the same requirements mentioned and then be sure that they can withstand the same pest-killers as well as similar pests!

AIN'T GARDENING FUN!

BEET CROP

The moderate increase of beef production will be concentrated in the second half of the year. Supplies of both fed and grass cattle at that time are expected to be larger than a year ago.

This is egg-eating season and there are ways of stretching scrambled eggs into a hearty main dish.

Left-over potatoes, peas, meat scraps, rice, many other ice-box gleanings and grate cheese will scramble well with eggs. Add onions, garlic, and other favorite seasonings.

Remember that eggs should always be cooked at a low heat . . . that's true whether you are baking, frying or cooking them in water. There should never be such a thing as a "hard-boiled" egg.

BANQUETS

WITH BETTY SCOTT

BOOK SHELF

By DOROTHY MARGO

This is not a group of book reviews today, but just a chat about the flood of new books on diet that the past year has brought us. It is true that American nutrition is woefully lacking in many vital ingredients. It is also true, however, that Americans are faddists to the nth degree, and that diet fads can become foolish or downright dangerous.

Gaylord Hauser's LOOK YOUNGER, has been on the best seller list for nearly a year. Now it is being bombarded by the U.S. government for misstatements and over-ambitious claims. However, before junking his theories in toto, check some of the other new diet and nutrition books. Surprisingly enough, they push the same basic ideas, though without the fanfare, or gift for showmanship that has made Hauser rich.

EAT AND GROW SLIM, by Donald Cooley, advocates calory counting, but not in the old manner. As in Hauser's books, the KIND of calory you are consuming is the important factor. The protein, carbohydrate, or fat content of the calory decides whether you are to feel fine, while taking off those pounds, or whether you will be looking for a dog to kick. Wilfred Dorfman, M.D., tells us that OVERWEIGHT IS CURABLE, in a neat little book that again stresses the KIND of calory you tuck away. Leland Kordel in HEALTH THROUGH NUTRITION discusses the work being done in psychosomatic medicine, and asks whether it would not be greatly helped by combining with the science of nutrition. The brain, as part of the body, can only function soundly if properly nourished. His last chapter sounds a bit like Hauser's newest book, for the heading is "Live Longer and Like It." One more that should be mentioned is Dobbin's LOW FAT, LOW CHOLESTEROL DIET, prepared by a

group of nutritionists at the University of California, a book that is clear and helpful throughout.

Most of these books give recipes, but I would like to mention here a cookbook that came out in 1947, by Adelle Davis, called LET'S COOK IT RIGHT. Mrs. Davis is an outstanding nutritionist, who also has to her credit VITALITY THROUGH NUTRITION and OPTIMUM HEALTH. There is, naturally, no mention of Hauser in this book, but from start to finish she advocates, in a quiet, lucid fashion, the very points he stresses, and the items he has glamorized and brought to national attention.

That Hauser has been over-enthusiastic is apparent, but it will be generally admitted that his erring has at least been in the right direction.

FALL PIGS AND SPRING LAMBS

The 1951 fall pig crop may be slightly larger than 1950, but should result in a larger supply of pork in the spring and summer of 1952 rather than this year. The early spring lamb crop was about 2 per cent larger this year than last.

How To Be Best-Dressed

Many a modern, well-dressed woman is likely to hear it repeated this spring that she looks scarcely older than her married daughter, for instance, or that she looks simply wonderful in navy (or some other certain color.)

The many recipients of such praise are, of course, the women who pride themselves on having developed a theory about clothes.

Few, if any, "mistakes" hang in their closets, and the new clothes they buy for any season are thoughtfully related to what is already in their wardrobes.

One woman knows that she looks best in the tailored sort of thing — another, in the soft, dressmaker fashion.

One has discovered the becomingness of a high neckline; another, the low. One finds that her figure is better fitted in the jacket and skirt; another, the dress and jacket.

The fashions designers of women's clothes sponsor for this spring and summer permit every woman to dress to type and "to figure." Many of the same dresses come in regular sizes and also in half-sizes.

Shopping . . . with Betty

By Betty Scott

Hives and hayfever seasons, with strawberry shortcake, orange and olive blossoms, are here! Happy itches to all! I know where you can get shortcake berries for 20c a basket! At THE PORTERVILLE PRODUCE, Orange at "C." The list of specials for this weekend will rival last week's. Last Saturday, they sold right off the truck . . . too busy to unload it! Lettuce 10c a head, Romain 15c a head, Cabbage, both red and white 4c a lb., Beets 2 bunches 19c, Carrots 2 bunches 17c, delicious Avocados 15c each, fresh Peas 15c lb., Celery 15c bunch, Dry Red Chilis 55c lb., (long green Fresh Chilis have arrived too), Grapefruit 5c each, Pippin Apples 2 lbs. 19c, Red Delicious 2 lbs. 25c or \$2.85 a box, new shipment of Cauliflower will be in, and Bananas with a low price, Summer Squash and Asparagus are fresh all the time and have new prices most every day. Get the best for less.

'Taint no joke to get beamed with a golf ball . . . and don't think it doesn't happen here! Huh?? What's more, you can buy insurance to cover that awkward situation. LUMLEY REED INSURANCE AGENCY, phone 524, Mill at Division, will fix you up with a policy that will protect you and your whole family from law suits that could break you . . . results of accidents while at play or while people are working for you. Maybe your dog will bite the mailman, your maid trip on a rug. Ten dollars (\$10) a year stops the threat of financial ruin, pays damages up to \$10,000.00 (ten thousand), your attorney fees, court costs, medical bills up to \$250.00 (two hundred and fifty) per person. See Lumley-Reed today for all insurance.

Read about an explorer who was offered a job as assistant to an African Witch Doctor because the explorer had some modern "miracle drugs" and vitamins with him. The native figured the man knew magic! You know you have magic when you get CULLIGAN SOFT WATER as a partner in your home. Saves money, I can prove it!

I seriously doubt that it's possible to get out of getting a traffic ticket in this town by buying tickets to the Policeman's Ball. I think that's one of the oldest of gags. Ever since the first Cop Hop that story shows up every time the boys stage a jig! Just want to let the local officers know it's going the rounds again . . . so they won't feel like imitation police. Everyone takes pride in being "the real thing," what ever his business. PROCTOR'S CLEANERS are proud of the work they do on your fabrics. Fabrics cleaned at Proctor's stay young longer, thanks to the "Retexturing" process that they get . . . and it's free!

Old fashioned phrases that our mothers and grandmothers used have gone out of style somewhat, but many of them were much more expressive than our present ones. My grandmother used to speak of "rubbing over" clothes when she meant that she was ironing dry clothes without sprinkling them. She spoke of "flying at it" when she meant that she was doing a hurry-up slap-dash job. She "flew into it" and "got it done" when she did thorough jobs. That's what you'll be doing if you go to THE BREY WRIGHT LUMBER CO. and get paint at their terrific sale. Fly into it . . . not at it, and turn your home out sparkling clean and dressed up.

The moan that "business is lousy" doesn't impress me so much since I've done some checking up. Lots of businesses have really had a better month this March than last year. \$ day did bring plenty more business into town . . . the trouble is that business is lower than the merchants' expectations . . . not lower than it should have been. They're just having to face reality after several months in a rosey dream of boom times. Like looking in a mirror when you are having a fine time and feeling that you're the life of the party . . . quite a shock sometimes to see you're not the glamor girl you imagined. With summer heat, swimming, and picnicing on the way . . . you'd better call 107-W and get an expert hair styling and permanent at FLORENCE PEAK'S BEAUTY SALON. Save yourself shocks.

Don't get so carried away playing Wild West and Rodeo and Roundup and 5th of May that you come to too late with a jolt to discover that May 13 is Mother's Day! Shop now, shop at BREY'S BOOK SHELF, 600 N. "D" St. Marie has those favorite "Ruby Bell" handwoven handmade white washable purses from the Smokey Mountains. Perfect gifts also are the Swedish Angel Chimes real ones. Vases, flower bowls, cups and saucers, plates, trays . . . most anything anybody's mother would want. Free parking at Marie's.

Sometimes I wonder if gossip is started by the victim to flatter himself or herself as the case may be. I just don't believe that it's possible for one man, for example, to be about to be named as troublemaker in three separate divorce actions at once! I note in each case that the husband is called "a prominent man." Sounds fishy to me . . . like bragging! Our business at the moment, though, is weddings. EDWARD'S PHOTOGRAPHY STUDIO, phone 1385-J takes beautiful wedding pictures . . . anywhere, any time, any wedding. Make your plans for a complete photograph record of your wedding.

A Good Place To Go

232 No. MAIN ST.

PORTERVILLE, CALIF.

The Farm Tribune

Published Weekly at Porterville, California
522 North Main Street Porterville, California
John H. Keck, William R. Rodgers - Co-Publishers
The Farm Tribune was declared a Newspaper Of General Circulation on January 10, 1949, by judgement of the Superior Court of the State of California, in and for the County of Tulare.

THE JUNIOR FAIR NEEDS SUPPORT FROM ENTIRE COMMUNITY

Right now, directors of the Tulare County Junior Livestock Show and Community fair are putting in some long hours in planning the 1951 show that will be staged in the Porterville Municipal ball park. And it's going to be a good show — a show that one of the great agricultural areas of the world should have and should support.

During the first three years of the fair, nine directors have assumed all responsibility for the show — including financial responsibility, and as of now, the fair has not made ends meet from the cash standpoint, although physical assets of the fair and cash liabilities just about offset each other.

Now, a somewhat enlarged board of directors is again assuming responsibility for this fourth annual livestock show and fair. But this year there is considerable opinion that no small group should be asked to continue to carry the financial risk on this community event. (This year, it will cost at least \$5,000 to open the fair.)

So letters are being sent out explaining the fair situation — explaining the advantages of this fair in regard to Future Farmers and 4-H club members of the community, explaining the advantages to business men of having a fair to show the products they sell, explaining the advantages to ranchers in having a local fair where they and their families can show what they are doing agriculturally, as well as enjoy a fine program.

And these letters ask that a contribution be made to the Porterville show — not great amounts, but something to help underwrite this desirable community event.

Many individuals and organizations have responded in the past with work — lots of work, and many individuals and organizations will respond again this year.

But in addition to this, the fair needs funds to operate — funds to continue the show and to expand facilities through the years. With help offered from the entire southern county area, the raising of these funds should not be difficult and certainly, a burden to no one.

The Porterville fair is entirely a local event; it receives no tax money; it stands on its own reputation; it is a fair that has received public notice throughout the west because it is strictly a local show, both financially and from the exhibitors' standpoint.

A dollar or two, or a few dollars given to the Porterville fair is the best means we know of for contributing to a real community enterprise, for contributing to the welfare of teen-age boys and girls of this community. And if you don't receive a letter, or if Fair Manager Harry Britton doesn't happen to see you — well, the mails still operate and the address of fair headquarters is 522 North Main, Porterville.

WEED CONTROL THROUGH USE OF CHEMICALS ALONG PATHS AND DRIVEWAYS MAKES GARDENING EASIER

By Karl W. Opitz, Farm Advisor

Weed control in the garden will be easier if paths, walks, and gravel driveways are weed-free.

A mixture of nine pounds of borax and one pound of sodium chlorate will sterilize the area. Sodium chlorate alone is inflammable and is safer to buy in a mixture that will not burn. Mixtures of this type are sold ready-to-use. Apply the dry mixture at the rate of five pounds to the square rod (272.25 square feet), or about two pounds per 100 square feet.

Heavy stands of weedy grasses, such as Bermuda, will need a heavier application, four to five pounds per 100 square feet for the heavier grasses.

Borax-chlorate mixture works through the soil, so be careful about damaging nearby trees and shrubs. The plants may be damaged if their roots are growing in the treated area.

TODAY'S THE DAY — IT'S TIME TO PAY

County Tax Collector J. A. Janelli, again calls to the attention of all county taxpayers the fact that the deadline for payment of the second installment of their county tax is 5:00 p.m., April 20.

After that time a 6% penalty charge will be added to the second installment plus a cost charge as provided by law.

If you purchased property after March 1950, Mr. Janelli says, the 1950-51 assessment is still in the original owner's name and the new owner should check to ascertain that all taxes have been paid, as second installment notices are not mailed.

He requests every taxpayer to submit their statement with their payment to insure payment on the correct property and also to speed up processing.

All mail postmarked by 5:00 p.m. on the deadline date will be accepted. Over-the-counter payments must be in the office by 5:00 p.m., April 20th.

LIONS TAKEN

California hunters turned over 15 mountain lion hides to the division of fish and game during February, and collected \$50 for male and \$60 for female lions taken.

THE BACK country — where fish and game can still be taken, but where fish and game must be pro-

tected and propegated through activities of organizations such as the Southern Tulare County

Sportsmen's association. A \$2 membership in this association — a ticket that also includes a dinner

and program Monday night — is a small amount indeed to pay for the work that is done by associa-

tion members each year in fish and game work.

We Only Heard

By BILL RODGERS

AT LEAST it will be a great show that Gen. Douglas MacArthur puts on as he returns after 14 years' absence from America. But let's be a little calm about it. Militarily, the president of the United States made the only

possible move in relieving the general from his Asiatic command. . . . Politically, let's remember that with the facts you and I have at hand, we are not in a position to know the right and wrong of a confined war in Korea or an expanded war in China as related to a possible third world war, and that's the basic issue between the Truman and MacArthur policies. But you and I can be certain that

either policy carries grave risk, without any guarantee of preventing a third world war. . . . As for the "MacArthur for President" boom — absurd, any way you look at it.

IN LOOKING through the accumulation of this and that on our desk, we find that while coffee is up 312% compared to 1940; pork chops up 225%, men's suits up 100% and butter up 73%, telephone rates are up only 27%. . . . Paul Hamilton, secretary of the PMA county committee of Tulare county, has a press release saying that 803 farmers received \$141,582.56 through the 1950 agricultural conservation program, the farmers getting said money for building dams, constructing steel pipelines, planting permanent pasture, clearing brush, building fire guards, controlling Johnson and Bermuda grass, spraying Morning Glory with 2-4-D, and other items. Seems

the government paid no more than 50 per cent of costs in any case, not over 30 per cent in most cases. We wonder why the government should pay any of the costs; also what the cost is to send us, and thousands of others publications throughout the nation, the abundance of material concerning PMA conservation — material of which not over 10 per cent is of any local news interest. . . . And we see that you can fish all night for trout in Buck's lake, Plumas county, between April 28 and October 31 and that you can fish any time of the year for steelheads and salmon in the Smith River, Del Norte county, up to Bailey riffle. . . . The California state chamber of commerce is about ready to report on California Water Plan studies, designed to utilize as fully as possible the average seasonal run-off of water in California streams — 70,794,000

acre-feet. . . . And American Farm Bureau Federation President Allan B. Kline will speak at the annual meeting of the Central Valley Empire association in Fresno, April 26. . . . And that's the items of the moment as found in the papers on our desk.

"GET ON THE BRAND WAGON" FOR YOUR LIVESTOCK SUPPLIES

WHEN GEORGE EASTON says, "Get On The Brand Wagon," for your livestock supplies, he literally means what he says, for in his Brand Wagon, George carries just about everything needed in the way of supplies for the stockman: Vaccines and serums, sprays and dips, instruments and leather goods, Teco equipment and Curri Oilers.

AND GEORGE knows how to use the products he sells, since he had three years of veterinary medicine at Washington State college and spent several summers working with a cousin, Dr. Earl Middlehoff, at that time secretary of the state board of veterinary medicine.

IN SPEAKING of his business, George says, "I am still in business and can still supply all the lines of livestock supplies and equipment that I pioneered in this area in the past, such as Teco equipment oilers, spraying equipment and insecticides, Rotenox, veterinary instruments, Swift's mineral blocks and leading approved lines of vaccines, serums and pharmaceuticals.

"AND HERE I want to express my thanks and appreciation to the many customers who have given business to the Brand Wagon, and to also express my thanks to the ranchers who have let me put their brands on my supply truck. We are proud of these brands, hence the slogan, 'Get on the Brand Wagon.' We try to originate, not imitate."

THE BRAND WAGON is now headquartered at Jennings Butane and Feed Service, 1332 West Olive street, telephone 933-J, Porterville. However, through radio telephone, contact can be established in a few minutes when the Brand Wagon is in the field, and supplies will be delivered to ranches on telephone call.

MR. EASTON, who was born in San Francisco and who came to Porterville in 1939, stresses the importance of disease prevention and first aid in the care of livestock. Much of his knowledge of livestock comes from the practical experience that he has had with livestock problems in the San Joaquin valley during the past eight years.

PORTERVILLE IRRIGATION DISTRICT ANNUAL STATEMENT OF FINANCIAL CONDITION

In compliance with Section 24274 of the California Water Code the Board of Directors of the Porterville Irrigation District hereby renders its financial statement for the year 1950:

RECEIPTS
Cash on hand January 1, 1950.....\$ 879.69
Money Borrowed.....500.00
Assessments paid in.....54,190.39
Special trust fund receipts.....1,817.47
Water sales receipts.....2,024.18
TOTAL RECEIPTS.....\$59,411.73

EXPENDITURES
Water purchases.....\$ 8,122.50
Special trust fund disbursements.....1,633.41
Insurance and bond premiums.....364.62
Office equipment and supplies.....462.07
Miscellaneous.....242.73
TOTAL EXPENDITURES.....\$10,875.33

SURPLUS
General fund balance, December 31, 1950.....\$45,769.75
Water fund balance, December 31, 1950.....2,024.18
Secretary's revolving fund balance, December 31, 1950.....288.58
Undeposited cash on hand, December 31, 1950.....453.89
TOTAL SURPLUS.....\$48,536.40

NOTE: The above statement reflects only the cash transactions of the District and does not reflect the expenditure of money for office construction, additional water purchases, and administration expense which were incurred in 1950 and were paid for by warrants which could not be taken up until after January 1, 1951, by which time a substantial number of assessments had been paid. Consequently the cash payment of \$15,984.96 made early in 1951 to cover the 1950 Expenditures will be reported as a part of the financial statement for 1951.

State of California, County of Tulare, ss.
I, the undersigned **VIRGINIA K. FALCONER**, Treasurer of the Porterville Irrigation District, being first duly sworn, depose and say: That the above statement of the financial condition of the Porterville Irrigation District is a true and correct report of the cash transactions of said District for the year 1950, according to the financial records of said District.

VIRGINIA K. FALCONER
Treasurer
Subscribed and sworn to before me this 12th day of April, 1951.
PAULINE BIVARLE
Notary Public in and for the County of Tulare, State of California.

(Seal)
My commission expires May 21, 1952. a19

Employment Office Head Announces Jobs Available;

With potato harvest starting in Kern county, Valencia oranges in Tulare county and general spring planting activities getting under way, agricultural employment in the San Joaquin valley is on the upswing, with approximately 60,000 workers on the job, compared to 54,000 at the same time last year.

Farm Bureau Meets At Springville Tonight

R. R. Killian, chairman of the Springville Farm Bureau Center, announces that a potluck dinner will be held tonight, 6:30 P.M. at the Springville Community hall, with a "short and snappy" business session and an entertainment program.

SPRAY WEATHER FORECASTS START

Spray-weather forecasts started this week through the Lindsay office of the U. S. Weather bureau, with such information contained as maximum temperature, minimum relative humidity and general weather.

These forecasts will be issued from Lindsay at noon, daily, Monday through Saturday. Radio station KTIP, Porterville, will include the forecast as a portion of its Farm Reporter program, at 12:30 p.m. Radio station KCOK, Tulare, will include the forecast as a portion of its 12:30 p.m. Holsum News. These forecasts are carried by the stations as a public service feature.

Edison Installs One-Millionth Meter

The Southern California Edison company last Thursday installed its millionth meter — the installation going into the new home of Mr. and Mrs. Dale B. Lillywhite at Whittier.

Indicative of the progress made by the Edison company during the past 55 years is a comparison of the West Side Lighting company's (parent of the Edison company) plant in 1896 — Representing an investment of \$11,000 and serving five commercial arc lights and three street arcs, to today's investment of \$600,000,000 to serve 3,000,000 people.

At present, the company operates 29 electric generating plants, both hydro-electric and steam-electric, and has two additional plants under construction, and by the end of the year will have spent approximately \$340,000,000 on the first six years of its current construction and plant expansion program.

PUBLIC SCHOOLS WEEK

The Springville school will observe Public School Week, April 23 to April 27. All who are interested are urged to visit the school during that week to inspect the work being done by the students. There will be a special program Friday, April 27, at 2 P.M. Each classroom will be represented in the entertainment.

LAMBS GOOD

Condition of early lambs in California, as of April 1, is reported to be the best since 1945.

PROTEIN FOR FEED

Safflower seed is being checked at Davis as a possible replacement for scarce animal proteins in diets of livestock.

SPRINKLER IRRIGATION

A two-day conference on problems relating to use of sprinkler irrigation will be sponsored by the irrigation division of the University of California at Davis, April 23 and 24, on the Davis campus.

Lindsay Host

(Continued from Page 1)
and end in the vicinity of the city hall.

Attending the monument dedication that follows the parade, will be Mrs. Myra Marshall, widow of the late colonel, and their daughters. Dedication speakers will be Mayor Crouch, A. L. Evans, Lindsay publisher, and C. W. Cleary, former assemblyman from

Lindsay. Prominent visitors from throughout the state, and officials from the bureau of reclamation, are expected to attend this ceremony.

Saturday afternoon program features a homecoming and reunion at an old timers picnic in the city park, followed by a swimming meet in the Municipal pool in which 200 school swimmers will compete. At 3 P.M. a Spanish revue will be staged by Porterville's Barn theater at the Olive bowl, after which judging will be conducted in a whiskerino contest.

Saturday evening, a square dance will be held at the Lindsay high school tennis courts, with Jerry and Hunter Crosby in charge and at 9 P.M. a street dance, sponsored by the Veterans of Foreign Wars, will open in front of the city hall and a "Gay Sombbrero" dance will be staged by Lindsay Lions in the Veterans' Memorial building.

At 10 P.M., a ball for Queen Sue will start at the Mt. Whitney hotel, and the queen will also be entertained at a noon luncheon, scheduled for the Veterans' Memorial building.

Wilma Roy, festival chairman, states, "The festival points out Lindsay's prosperity as an agricultural community. Everyone in Tulare county is invited to help us celebrate at this biggest event in our friendly city."

Applications of 2,4-D will not stop June drop in Tulare county citrus orchards, according to Farm Advisor Clem Meith. Application of 2,4-D in southern California orchards has stopped pre-harvest drop, however experiments in Tulare and Kern counties have brought no control for June drop.

Farm Tribune Adds Get Results

THESE HOLDING ponds were constructed at Moorehouse springs by members of the Southern Tulare County Sportsmen's association as part of the association program to keep Sierra streams stocked with trout. It was through action of the local sportsmen's association, that the Moorehouse hatchery was originally established and it is for this type of activity that your \$2 membership in the association is used — and with the \$2 you also get an excellent dinner next Monday night at 315 Garden street in Porterville.

Agriculture

include the cost of picking, hauling, packing and otherwise preparing for delivery at the point of packing."

Citrus acreage shows 26,071 acres in Navel oranges; 11,161 acres in Valencias; 11 in limes; 366 in grapefruit and 1,114 in lemons. Grapes had an acreage of 74,748; olives, 9,019 and orchard crops other than citrus, 26,194.

Leading truck crop was potatoes, in point of acreage, with 13,600 acres, plus another 1,275 for certified seed, and 28 other truck crops were listed. Leading field crop was cotton with 116,873 acres; miscellaneous agriculture included glazed and processed fruits, valued at \$700,000; nursery stock valued at \$270,616; ornamental and cut flowers at \$257,179, in addition to 46,426 tons of fertilizer and 750 tons of straw.

The county had 554,333 head of chickens and produced 937,000 head of baby chicks; had 8,173,888 dozen eggs and raised 12,013,573 pounds of turkeys.

Value of beef cattle was \$36,960,817; hogs, \$1,440,589; sheep and lambs \$140,000 and registered livestock, \$759,659.

Springville

(Continued from Page 1)
grass area surrounding the rodeo grounds.

Five thousand bleacher seats, with 400 reserved seats, have been constructed at the arena, with bucking chutes rearranged to offer a better view for the crowd and to provide additional arena space.

The Saturday program, which will open in the morning, will include a carnival, an old fiddlers' contest and rodeo queen judging, with featured event to be an evening dance, starting at 9 o'clock at the community center.

The celebration is sponsored by the Springville chamber of commerce, headed by Monte Gifford. Ted Morgan is general chairman; Springville Lions are also working on the show. Fifty percent of the proceeds go to the Tulare-Kings Tuberculosis Sanatorium Rehabilitation program at Springville.

The annual Springville Frontier days has come to be one of the big events of the spring season in the lower San Joaquin valley. With its foothill setting, the two-day show is ideally located for this season of the year and at the Sunday rodeo, top hands will be competing for those national championship RCA points.

Events slated for the rodeo include. Bronc riding, bull riding, bareback bronc riding, calf roping, team roping and a pig race. Rodeo headquarters is Veda's Steak house, in Springville.

FARM TRIBUNE ADS PAY

Sportsmen

(Continued from Page 1)
will be produced during the fishing season.

The sportsmen's association is now working on a program to start wild turkeys in the mountain country; the association planted beaver along mountain streams last year; the state game farm on Morton street, for production of pheasants, was brought to Porterville through efforts of the association; the reserve warden program has been supported by the sportsmen's group; for a number of years, the association has concerned itself with increasing the quail population of the area and association officers constantly check on and make recommendations concerning legislation that effects wildlife.

Through efforts of association members, Murry park lake was last year cleaned out, the banks sloped as a safety measure for children and several thousand fish planted in the lake. Now, the association holds an annual "Huck Finn" day for the benefit of youngsters of the community.

(Editorial Comment — That \$2 membership in the Southern Tulare County Sportsmen's association is the biggest bargain in town. If you don't have one, for goodness sakes, get one.)

Project Reports Given At Ducor

Bob Zimmerman and Joleen Flynn gave reports at the April meeting of the Ducor 4-H club held last week at Ducor; Walter Hunsaker and Arlene Morris reported on the recent livestock show at San Francisco's Cow Palace and Fred Lawrence told of a recent senior 4-H meeting.

HIGH COW

A registered Holstein owned by Mrs. J. W. Taylor of Visalia, topped the Tulare County Dairy Herd Improvement association for the month of March, with 18,192 pounds of milk and 647.4 pounds of butterfat in a 305-day lactation period.

JAM SESSION AT SPEEDBOWL FRIDAY NIGHT

The ramblin' wrecks of the Valley Jalopy Racing association will converge on the Porterville Speed Bowl for another jam session Friday evening.

Mr. and Mrs. Loron Bartlett, owners of the track, have announced they will contribute all of their share of the proceeds from the races and concessions to the organ fund of the First Christian Church.

After the initial evening jalopy racing session here two weeks ago, it is apparent that the crash rail is due for another beating. At the last program, five cars found their way though the heavy planking, one right at the feet of front row spectators.

Spud Simpkins will be driving to retain his crown as King of the Porterville track, and other ranking drivers will be gunning to lift it from his head.

The big program, for which more than 40 cars are expected, will get under way with the time trials at 7 p.m., with the racing program to open with the trophy dash at 8 p.m.
